Subject: Gold Shovel Standard Certification

Company Name: Dig It Inc.
Certification Status: ACTIVE
Expiration Date: November 1, 2018

What is a Gold Shovel Standard Certification?

GSS-certified excavators rely upon a robust safety management system, which specifically incorporates damage prevention to increase public and workforce safety. GSS-certification is a proactive indication of an increased investment in damage-prevention to drive safety, reduce damages, and minimize the risks associated with excavating on or around buried assets. Gold Shovel Standard-certified entities have audited policies and procedures that meet the specific requirements of the Gold Shovel Standard program.

About Gold Shovel Standard

Gold Shovel Standard (GSS) is a nonprofit organization committed to improving workforce and public safety and the integrity of vital buried infrastructure. GSS believes that greater transparency in all aspects of damage prevention among buried-asset operators, locators and contractors is essential to drive continuous improvement, and vital to ensure increasingly safe working conditions and communities. The Website is www.GoldShovelStandard.org.
